

MAXI WAVE

« MAXI WAVE: clock special for team spaces and management. »

SMART CLOCK

Radio-controlled technology

Approximative clocks are over now : With MAXI, time is automatically and steadily updated through radio signals from the atomic clock of Mainflingen.
High accuracy: maximum discrepancy of 1 second over 1 million years.

LARGE CLOCK 37,5 cm

Easy to read

With its large diameter, MAXI can be read from far away: It's the ideal clock for large spaces.
Available in 2 colors: black and metal grey

Readable from up to 150 metres!

TECHNICAL FEATURES

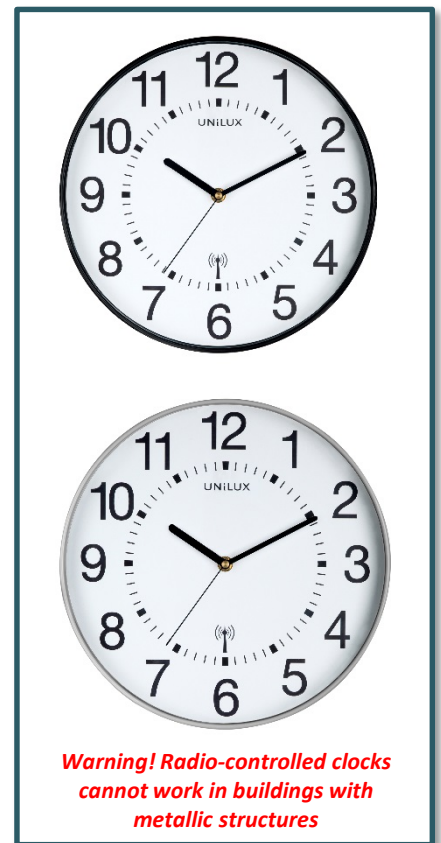

Materials

Outline: plastic

Cover: glass

1 AA 1,5V (supplied)

Average consumption: 0,22 mA

Warning! Radio-controlled clocks cannot work in buildings with metallic structures
