

ZELUX

«ZELUX: a LED uplighter efficient and adjustable:
Direct and/or direct-indirect lighting. A smart and modern design.»

POWER

And low energy consumption

ZELUX is equipped with two LED modules , developed by UNILUX : they provide a powerful lighting of **2*2000 lumens** for a consumption of only **40 W**. ZELUX is one of the most efficient uplighters of the market

Lifetime of the built-in modules : **40 000h**

TAILOR-MADE

Direct and/or indirect lighting

A system of ball-joints enable to adjust the LED modules separately and to direct the flux according to the users' needs. Each module can be turned entirely upwards in order to get a **direct-indirect lighting**, lighting recommended by the ergonomists.

ZELUX is also equipped with an **intensity dimming**.

A RIGHT DESIGN

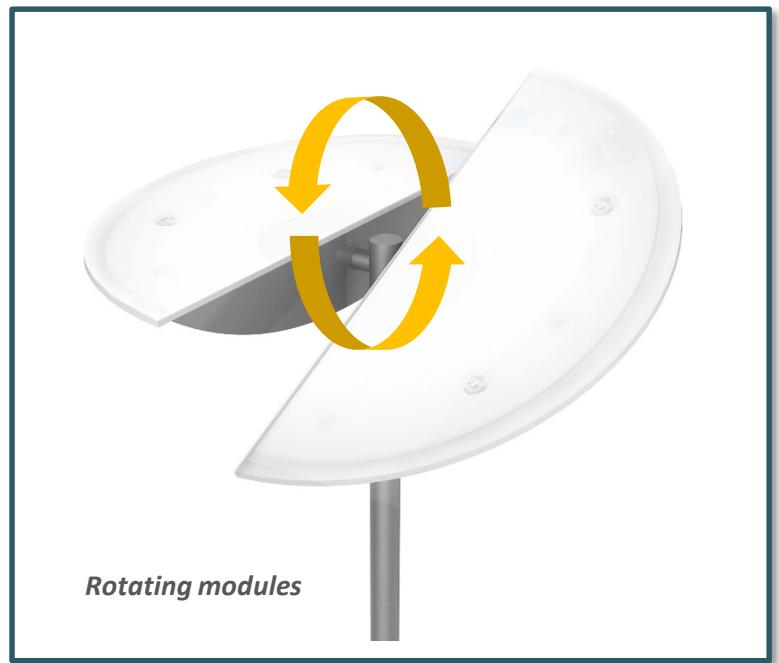

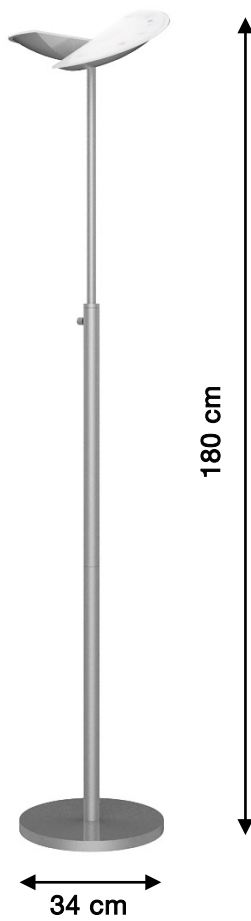

Original and contemporary

Its dynamic and harmonious lines give it a very modern look that immediately seduces. It will fit perfectly into any office.
