

Update RollerMouse product line

Contour

All RollerMouse models upgraded

Entire product range has been updated

- Implementation of sustainable materials - reducing CO2 per product
- Adding Bluetooth option to wireless products
- Improved wrist rests with anti-bacterial surface
- USB-C adaption - EU Directive for 2024

RollerMouse Red
The premium mouse

RollerMouse Pro
Nordic design with all functionalities

RollerMouse Go
The compact solution

Reintroducing
RollerMouse Pro3

A classic is back – RollerMouse Pro3

Why reintroduce RollerMouse Pro3?

Due to overwhelming end-user demand and the clear benefits reported by our customers, Contour bring back this favorite mouse to the existing and loyal users.

- Extensive installed base of units in use – purchased over the past decade
- Users loves their RollerMouse Pro3
- End users are predominantly age 40-69 – presumably not adopters of other products
- Significant potential replacement sales (PRO3 not suitable/intended for new bizz => RED or PRO)
- Uncomplicated repurchase sales if current/preferred product (PRO3) is available in the channel
